01 PRODUCT OVERVIEW

Purpose: Establish the identity foundation of the ANCR™ ecosystem. Creator First™ principle: every creator owns one permanent verified identity that follows them for life.

ANCRID™ is the identity layer for the entire ANCR™ ecosystem.

Every creator receives one permanent verified identity that follows them from admission into CCDP™ through graduation and throughout their professional career.

ANCRID™ is not a profile page. It is the verified source of truth for creator identity.

02 PRODUCT VISION

Every creator should own one trusted professional identity.

Instead of recreating profiles across dozens of systems, creators build one verified record that grows throughout their lifetime.

Every achievement. Every collaboration. Every course. Every publication. Every recommendation. Every tour. Every booking. Every milestone.

Each one becomes part of one verified identity.

16 ENGINEERING NOTES

- ANCRID™ is the source of truth for creator identity.
- Every other ANCR™ module consumes ANCRID™.
- Creator Passport™, Creator Mobility™, and Professional Booking Packet™ belong to ANCRID™.
- Identity, permissions, verification, and authentication must never be duplicated by another module.
- All modules authenticate through ANCRID™ Single Sign-On.
- Reputation™ is calculated from verified ecosystem activity.
- ANCRID™ stores references to ecosystem data rather than duplicating ownership of records.
- Public and private information must be field-level permission controlled.
- Every creator receives one permanent ANCRID™ that remains with them throughout their entire career, regardless of institution, employer, or geographic location.

Engineering Principle

ANCRID™ is the foundation. ANCRA™, ANCRLAB™, ANCRSync™, COHEIR™, INHEIRA™, Vaulta™, ANCRMEDIA™, ANCRD™, and ANCRLaunch™ all consume and extend that verified identity rather than replacing it.
