

COHEIR™ WORKFLOW

WHERE EDUCATION MEETS INDUSTRY

Educators. Leaders. Partners. United to Prepare the Next Generation.

Prepared for: Tech Team

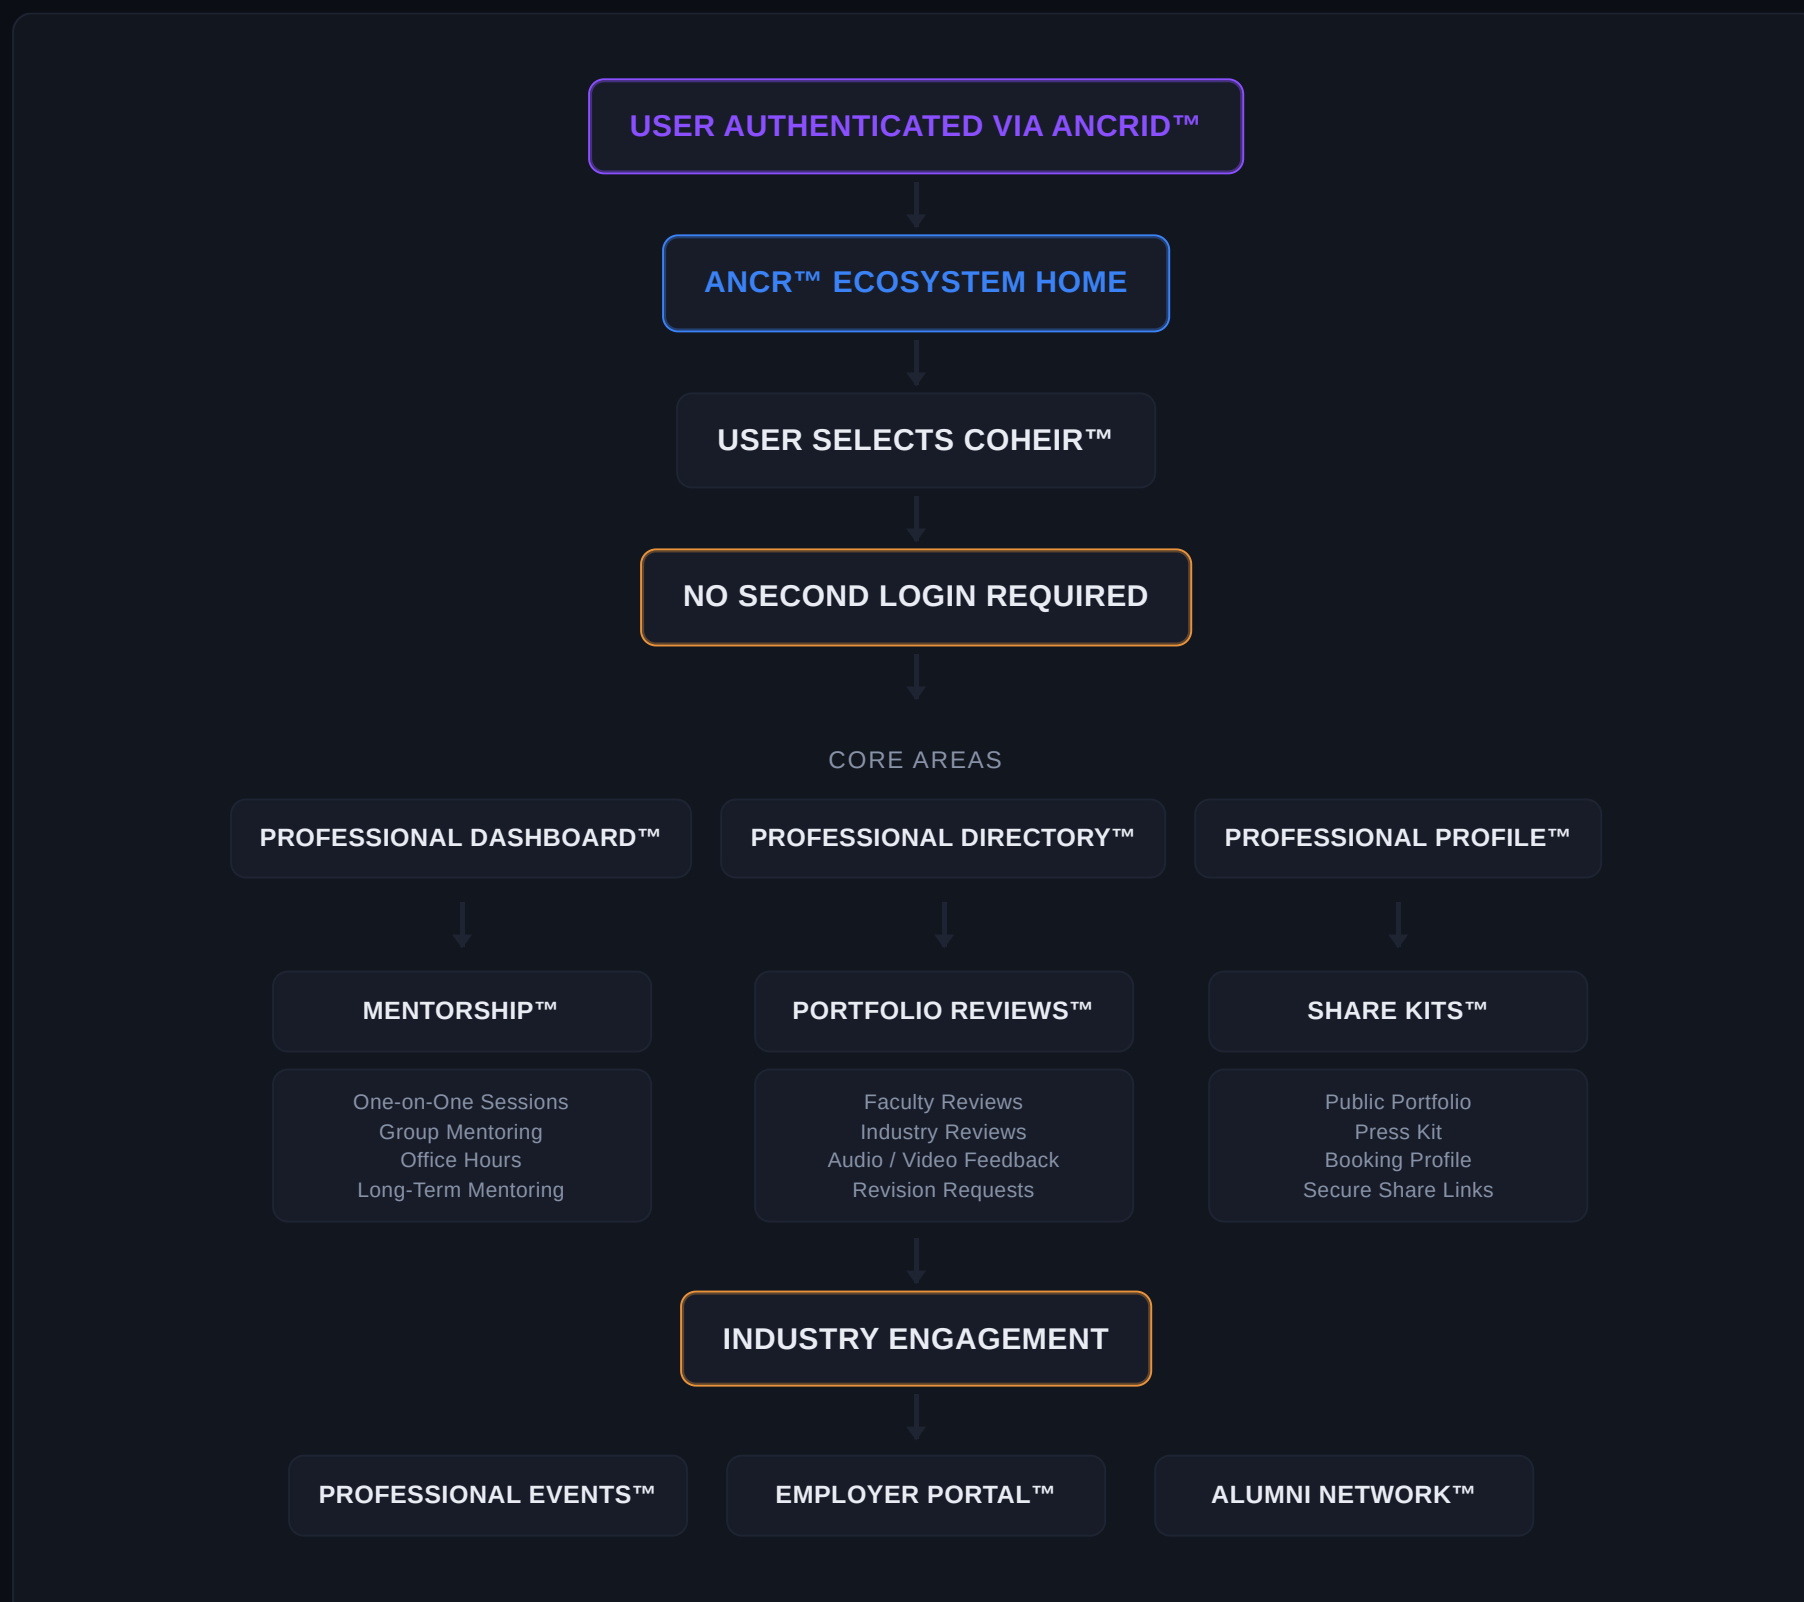

System: COHEIR™ (identity: ANCRID™)

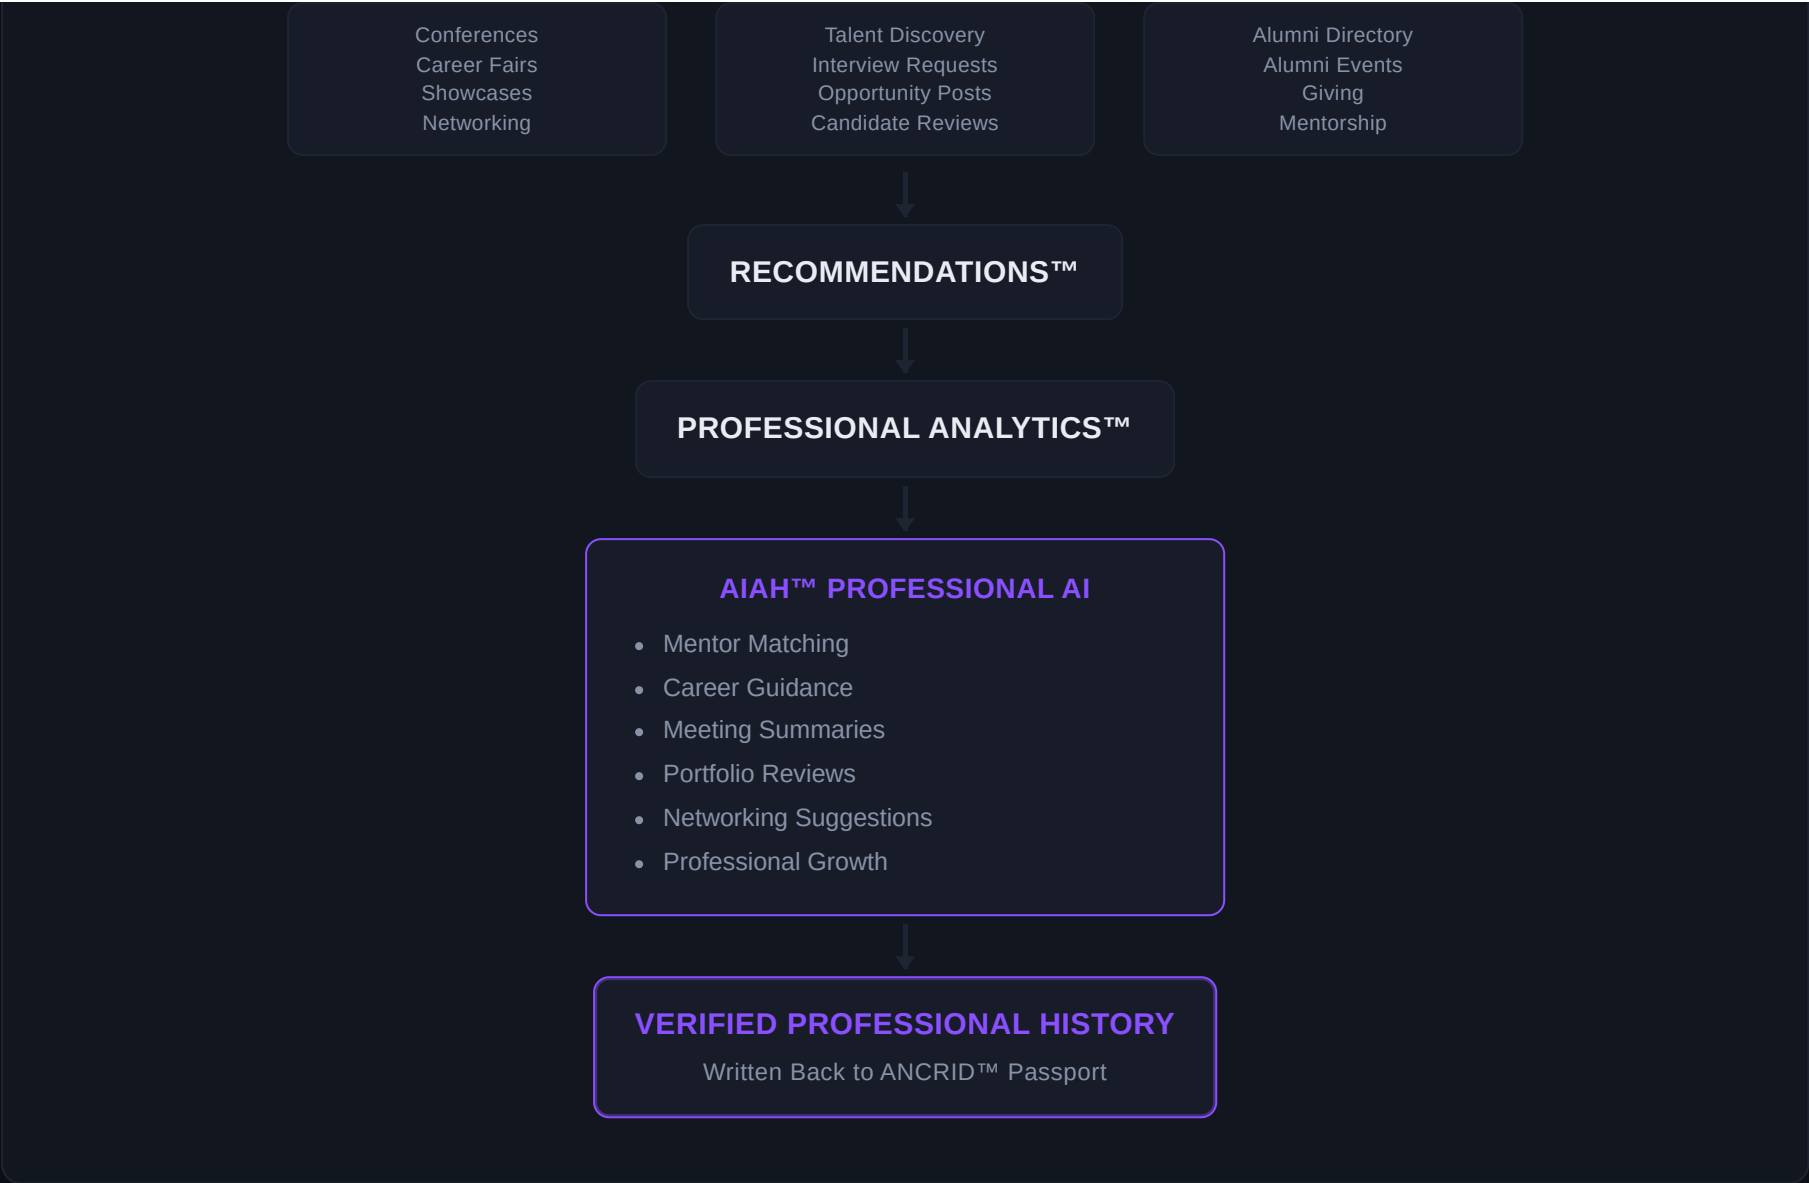

Doc type: Module Workflow Specification

PRINCIPLE

COHEIR™ is not a social network. It is the professional relationship and mentorship platform of the ANCR™ ecosystem. It connects verified creators with mentors, faculty, employers, executives, alumni, and industry while consuming verified data from the rest of the ecosystem rather than duplicating it. It authenticates exclusively through ANCRID™ with no separate login.

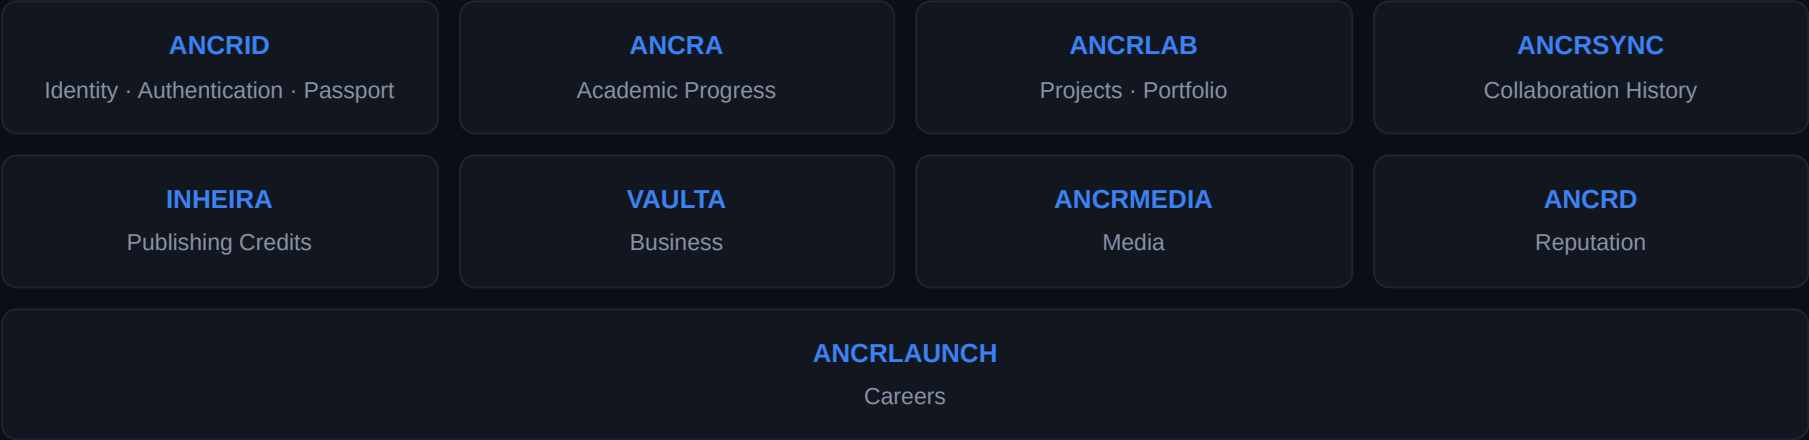

COHEIR™ WORKFLOW

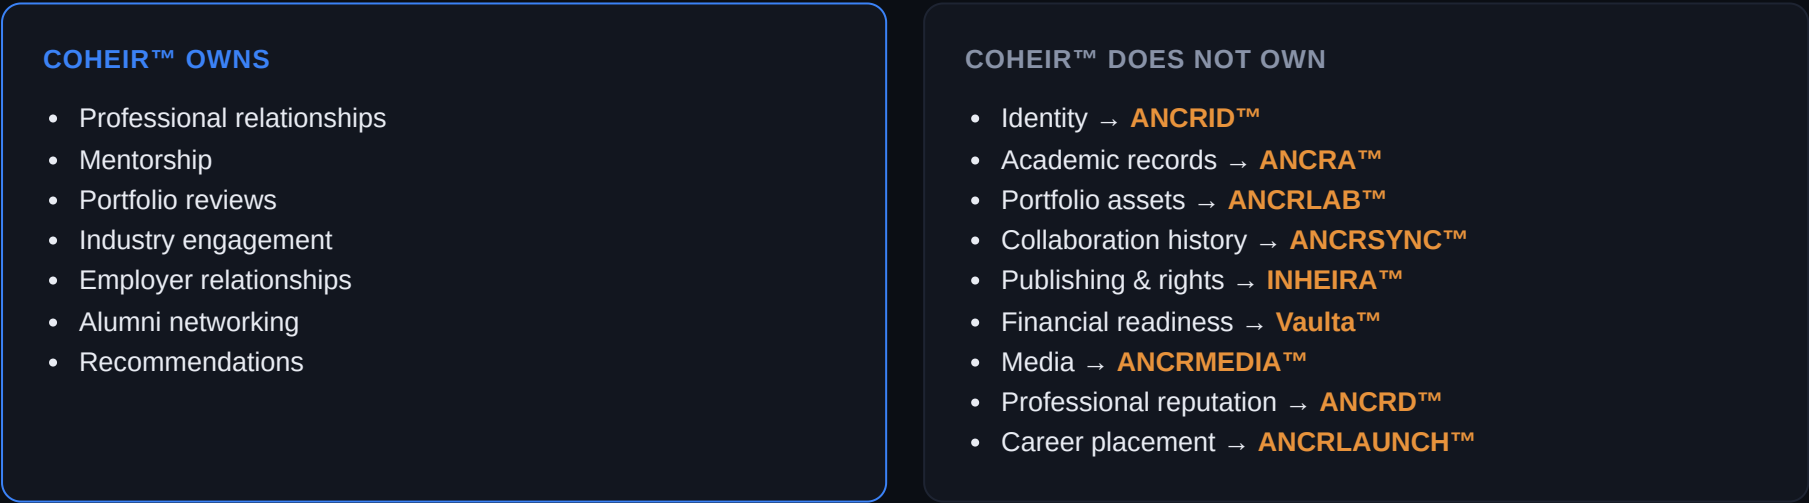

ECOSYSTEM CONNECTIONS

COHEIR™ owns mentorship and professional engagement only. Everything else is referenced from the appropriate ANCR™ module.

Every mentorship, portfolio review, recommendation, employer interaction, and industry session becomes part of the creator's verified **ANCRID™ Passport**.

ENGINEERING PRINCIPLE

This workflow preserves the architecture established across the ecosystem: one ANCRID™ login, one connected experience, and each module owns only its domain while consuming verified data from the others.
