PURPOSE

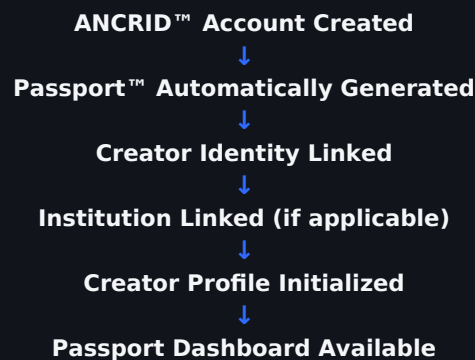

PURPOSE

Passport™ serves as the creator's verified professional record throughout the ANCR™ ecosystem. It tracks identity, achievements, credentials, experiences, certifications, portfolio milestones, institutional participation, and career readiness as creators progress through CCDP and beyond.

Creator-owned. Passport™ belongs to the individual, not the institution. Identity originates in ANCRID™; other modules contribute data that remains governed by its owning system; and creators control what information is shared externally and with whom.

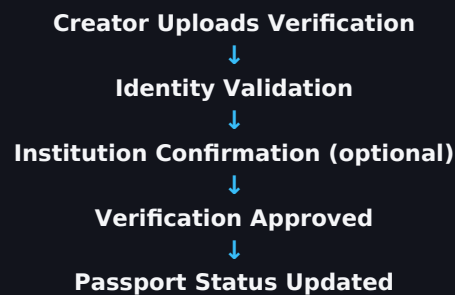

WORKFLOW 1 Passport Creation

Trigger: User creates an ANCRID™ account.

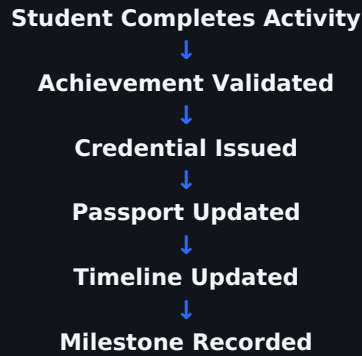

Outcome. Every creator receives a lifelong Passport™ upon joining ANCR.

WORKFLOW 2 Identity Verification

Outcome. Verified identity unlocks additional platform capabilities.

KEY PRINCIPLES

KEY PRINCIPLES

- **Creator-owned.** Passport™ follows the individual throughout their career, independent of any single institution.
- **Identity originates in ANCRID™.** Passport does not create or duplicate identity authority.
- **Owning-system governance.** Data is contributed by other modules but remains governed by its source system.
- **Unified, not duplicated.** Passport presents a unified verified professional record rather than copying source data.
- **Creator-controlled sharing.** Creators decide what information is shared externally and with whom.

Alignment. This workflow set aligns Passport™ as the lifelong professional identity and achievement record that ties together the entire ANCR™ ecosystem.

ONE CREATOR. ONE LIFELONG RECORD. ANCR PASSPORT™.
